Career Objective

Aspiring computer science professional with a robust foundation in Python and MERN Stack, currently in the Final year of undergraduate studies. Seeking an internship or entry-level position where I can leverage my programming skills and problem-solving abilities.

Education

Vellore Institute of Technology, B.Tech in Computer Science

Oct 2022 - Sep 2026

- CGPA: 8.01

Delhi Public School, Raipur

- Class XII: 76 (AISSCE)
- Class X: 84 (AISSE)

Projects

Smart Travel Planner

Dec 2024 - April 2025

- Developed a Smart Travel Planner web app using the MERN stack to automate trip planning and itinerary creation.
- Integrated real-time weather updates, budget estimates, and optimized routes for efficient travel planning.
- Allowing users to save, edit, and share personalized travel itineraries across multiple destinations.

Tune Play (Music App)

Nov 2023 - Jan 2024

- Designed a feature-rich music app like Spotify and Apple Music using HTML, CSS, and JavaScript, offering seamless UI/UX for music discovery and playback.
- Enabled users to stream, download, and upload music seamlessly.
- Added a personalized 'Liked Songs' section for enhanced music library management, enabling users to curate and manage their favorite tracks efficiently.

Hospital Management System

Jan 2022 - March 2022

- Built a hospital management web app using Python with SQL-based data handling, enabling efficient record management for patients and doctors.
- Simplified receptionist tasks by enabling add/edit functionality for patient and doctor records.
- Implemented online appointment booking for patients to connect with doctors easily and reducing manual scheduling overhead.

Experience

Bluestock - Software Developer Intern

April 2025 - June 2025

- Leading a team of developers to build scalable backend services using Node.js.
- Guiding junior developers through code reviews, best practices, and architecture decisions.
- Collaborating with cross-functional teams to ensure smooth integration and deployment workflows.
- Managing task distribution, sprint planning, and technical documentation for ongoing projects.

Skills

Languages: Python, C++, SQL, HTML/CSS, JavaScript and MERN Stack

Technical Skills: Project Management, Problem-Solving
